

VANPOOL SAFETY REQUIREMENTS

As of May 1, 2020

1

WEAR A MASK

All vanpool members are required to wear a mask or face covering for the duration of the trip for their protection and the protection of the others on the vanpool.

2

DON'T RIDE IF SICK

If anyone feels sick, has been sick, or has run a fever within the last 24 to 48 hours, they should not be commuting at all to work, much less riding in the vanpool that day.

3

LIMIT SURFACE CONTACT

Everyone should touch as few surfaces as possible.

4

DISINFECT SURFACES

Commonly touched areas of the van should be wiped down periodically with a disinfectant spray or wipe.

5

MAINTAIN SPACING

Try to sit as far away as possible from other vanpool members. When and if we have larger vans available, we will make them available to vanpool groups in order to promote more distance between vanpool members on the van. The priority for larger vans will go to the larger vanpool groups first (vanpools with 10 or more people) trying to split into two or three vanpool groups.

6

WINDOWS OPEN

When possible, safe, and weather permitting, we strongly recommend the van operate with the windows open.

7

GLOVES FOR DRIVING

Anyone in the role of driver should consider wearing gloves as the steering wheel is the most commonly touched item in a vehicle.

8

WASH HANDS

Please wash your hands thoroughly with soap and water as soon as possible after exiting the van.
